Value Proposition

Financial Process Automation. Increase productivity, encourage collaboration, and free your resources from labor-intensive tasks by automating processes. Manage accounting, invoicing, inventory, payments, and customer relationships with ease, while ensuring standard operational procedures are followed. Use real-time data to support your financial decision-making.

Modular Design Makes it Scalable. Dramatically impact deployment time and costs with modular software that can be scaled up to meet your growing needs anytime.

100% Adaptable for a Perfect Fit. Strategic mix of technology and business consulting tailored to your needs. Make compliance a given by incorporating rules and best practices into your systems. Streamline approval processes and move them forward with customized alerts.

Custom Dashboards and Reports. Robust analytical tools and role-based dashboards help you and your team harness your data to quickly find, report, and track the information most important to you. Evaluate performance and identify deficiencies to improve your operations. Keep an audit trail of user access and document modification. Export reports to Microsoft Excel to build on existing layouts as needed. All mobile device friendly for business visibility while on the go.

Ease of Integration and Migration. Standard integration works out of the box, including email and single sign-on. Full management of your data cleansing, transformation, and migration from existing platform.
